

Field Trip Educator Internship

Corvallis Environmental Center Background: The CEC envisions a community in which People Learn, People Care, People Act. In pursuit of this vision, our mission is to educate, engage, and inspire people to create a healthy, sustainable community. We do this through nature-based education, local & healthy food initiatives, and energy conservation programs. The CEC was founded in 1994 as a grassroots effort to take action on environmental issues and today reaches over 15,000 people in Benton County and surrounding area through its programs and services. CEC educational programming and community events are held at the Avery House Nature Center, Starker Arts Garden for Education (SAGE), in community schools, and outside at various parks and other locations. The CEC is a 501(c)(3) non-profit.

Position Description: The Corvallis Farm to School program makes connections between our food system and our school system. Our program increases the use of local foods in our schools, encourages children to make healthy eating choices and supports regional farmers. As an intern, you will gain hands-on experience in food, nutrition, and agricultural education, get to work with community volunteers, and assist with promoting local foods for our school district. We provide a wide range of programs, and work with interns to design their experience around their interests.

Position Responsibilities:

The Field Trip Educator intern will work under the supervision of the Farm to School Coordinator and Nature Programs Coordinator and will be responsible for the following:

- Participate in CEC Internship Orientation
- Participate in Field Trip training
- Participate in at least one CEC event (Family Mushroom Hunt, SAGE Harvest Festival, Wild & Scenic Film Festival, Earth Ball, etc.)
- Assist with Corvallis Environmental Center field trips, including field trips at SAGE, the wetlands, Avery Park, and offsite locations
- Design, and implement age-appropriate activities, and lessons, related to the promotion of local food systems and place-based, nature-based learning
- Help bring more local nature, food, gardens, and agricultural education to our students
- Participate in community activities surrounding nature, food, health, and children
- Pursue your own project to contribute to the Corvallis Farm to School movement
- OPTIONAL: Earn academic credits– available to LBCC & OSU students. See our website and check in with your advisor to see if this internship qualifies for your academic program

Qualifications:

- Interest in local, sustainable food, cooking, and garden education
- Interest in nature-based, place-based education
- Experience working with children
- Ability to communicate effectively with a diversity of people
- Punctual and reliable
- A self-starter: ability to take initiative
- A positive attitude!
